Expert Quotes

The pH level of our internal fluids affects every cell in our bodies. In summary, over-acidification interferes with life itself leading to an unhealthy, and overly acidic environment inside the body. The most powerful program to reduce or eliminate these effects is to remove acid from the blood and tissues with an alkaline lifestyle and wise dietary and water consumption choices. If someone were to ask me, What is the one thing I can do to have better health? The answer would be very simple, Start drinking alkalized and ionized water!

Researcher Dr. Robert O. Young, PhD

Drinking four to six glasses of alkaline water a day will help to neutralize over acidity and over time will help to restore your buffering ability. Alkaline water should be used when conditions of over acidity develop, such as cold, flu or bronchitis.

University lecturer and author of The Chemistry Of Success Dr. Susan Lark, M.D.

Drinking water that has high alkaline pH, because of its de-acidifying effect, will help in preventing cancer. In Asia, alkaline water is regularly served to patients, and is considered a regular part of treatment.

Dr Keiichi Morishita, Director of the Ochanomizu Clinic in Japan and the head of the International Natural Medicine Association

All the while I thought that Vitamins C,E and carotene & Chinese herbs were effective in removing Free Radicals. However, I was surprised to find in my experiments that, Ionized Water can removed up to 75% of the free radicals in our blood.

Dr. Kenneth H.Cooper, The Father of preventive medicine & author of "Antioxidant Revolution"

Ionized Water has shown miraculous results against diabetes, rheumatism, kidney ailment, chronic hepatitis, hypertension, asthma and etc...

Dr. Lui Feng Zhou, Professor of Taipei Medical College

Sensitive Skin

BEFORE

All my kids were having nasal and skin allergies as well as easily caught cold.

AFTER

Obvious improved results within one month.

Improve joint, nerve pain

BEFORE

Two years back, I suffered pain in walking as my joints were sore. My nerve is extremely pain too.

AFTER

After drinking E-IONS ionized hydrogen water for two months, my problem improved, my joint does not suffer from pain anymore whereby my nerves does not felt strained again.

Diabetes

BEFORE

A year ago, my blood glucose index was 14.5mmol which is very high, where I require to take medicine for a long period of time. I asked the doctor if there was any way I could lower my blood glucose index. The doctor recommended I to take insulin but I rejected as I do not want to rely on insulin so I decided to find alternatives ways by my own.

AFTER

In such coincidence, Mr. Chow Saik Theam introduced me E-IONS ionized water system where it have anti-oxidant functions that can reduce free radicals and blood glucose in my body. After I listened, I decided to give it a try and bought a E-IONS ionized water machine with the model of S700CW. After I consumed for a month and a half, my blood glucose index dropped from 14.5mmol to 6.5-7mmol. I would like to take this opportunity to tell everyone about my own experiences and benefit more people.

THE DIFFERENCE BETWEEN E-IONS ELECTROLYSIS PLATE WITH OTHER BRANDS

2.0µm Platinum/pcs

- E-IONS used Platinum Baked Titanium Electrolysis Plates which made from Japan Kobe Steel, Ltd
- Electrolysis plate measurement : 9cm x 12cm x 2 cm (Double sized) = 216cm³/pc
- Each plate contains 2.0 microns of platinum

E-IONS ionized water machine is the only machine in the market that can be upgraded. The machines can be upgraded anytime regardless of the model purchased.

Can be OXIDIZED

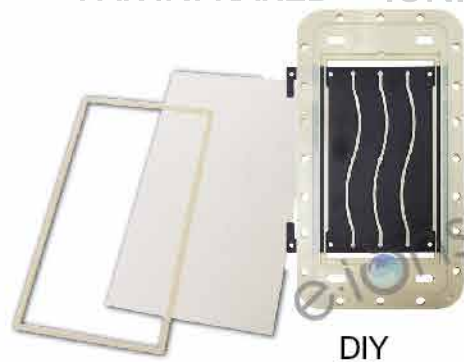

Other Brands

Electrolysis boards that are made of platinum coated metals, stainless steel and iron that are low in cost and will only last 1-2 years. If such metals decayed in water, even in small quantity, they are hazardous to the drinkers' health.

The Japanese platinum baked titanium electrode boards are made of platinum 0.1 or 0.5 microns, only 0.5 microns (µm) will last up to 10 years.

アルカリイオン水 電解養生水 E-IONS Japanese Ceramic Electrolytic Diaphragm

BENEFITS OF IONIZED WATER

IONIZED ALKALINE WATER (pH7.5 ~ pH 9.5)

Alkaline water helps to balance the body's pH by removing acidic toxins through detoxification process

Maintain Calcium, Magnesium, Potassium, Sodium & other ionized minerals in the water

SMALLER WATER MOLECULES

Alkaline water molecules are 2x smaller resulting in faster absorption and keeping cells hydrated

Ideal for cooking as it enhances the flavors of all foods

HIGH ANTI-OXIDANT CONTENT

Oxidation Reduction Potential (ORP) ranging from -250mv to -650mv

Anti-oxidants are proven to be best in neutralizing and eliminating harmful free radicals, therefore effectively preventing various age-related and modern diseases

POWERFUL ANTI-BACTERIA AGENT (pH3.5)

Use in cleaning and disinfecting household surfaces

Natural antiseptic for cuts, wounds, burns and insect bites

Effective in cleansing chemical residues from raw food materials

Act as mouth wash to eliminate germs or gargle to soothe sore throat

IMPROVE SKIN CONDITIONS AND PROBLEMS

Removes dirt and excess oil to gradually improve skin complexion (acne & blemishes)

Relief for dry, itchy or chapped skin (eczema, psoriasis & athlete's foot)

BEAUTY & HAIR CARE (pH5.5 ~ pH6.5)

Replica to toner in keeping skin hydrated, natural whitening skin care

Good for hair scalp and helps improve dandruff problems

The SMALLEST water molecules in the market

DEMONSTRATIONS & EXPERIMENTATION ON WATER QUALITY

pH tests for all types of water

E-IONS Ionized Alkaline Water is pH10 (adjustable to pH8-pH10) and is rich in mineral ions such as calcium, magnesium, sodium and potassium ions. It is alkaline, can neutralize acidosis as well as maintain our body healthy.

Detoxification and antioxidant tests for types of water

Iodine is widely used as an antiseptic medication and it is also poisonous peroxide which contains organic toxins. Why E-IONS Ionized Alkaline Water will turn clear after few drops of Betadine inserted? Mainly because of E-IONS ionized alkaline water is rich in calcium ions, have detoxification characteristic and E-IONS ionized alkaline water has the function of anti-oxidant and its oxidation-reduction potential (ORP) of about -200mv to -700mv. Effective in pesticides removal when ionized alkaline water is used to wash fruits and vegetables.

The typical molecular structure of water contains 13~16 molecules, however the structure of E-IONS alkaline water has only 6 small molecules. It can penetrate into tea leaves and release minerals in the leaves, while water with larger molecules is unable to have the same effect. Drinking E-IONS alkaline water on a daily basis will help increase our metabolism.
